1. Predmet ustrova korišćenja

Ustvari korišćenja definišu pravila iznajmljivanja i korišćenja Microsoft licenci po Service Provider License Agreement (SPLA) modelu. Ustvari korišćenja predstavljaju aneks Ugovora o korišćenju servisa baziranog na operativnom sistemu Microsoft Windows.

2. Osnovne obaveze Provajdera

Provajder se obavezuje da će u periodu važenja ugovora omogućiti Korisniku korišćenje zakupljenih Microsoft licenci po SPLA modelu, i da će nadležnom SPLA distributeru svakog meseca dostavljati izveštaj o iskorišćenim licencama Korisnika. Zakupljene licence su navedene u porudžbenici koju je Korisnik poput prilikom poručivanja servisa, ili je pak naknadno između Korisnika i prodavca Provajdera dogovoren korišćenje dodatnih Microsoft SPLA licenci.

Provajder se obavezuje da će pri inicijalnoj instalaciji servisa baziranog na operativnom sistemu Microsoft Windows, predočiti Korisniku koje su neophodne licence, u skladu sa korisnikovim zahtevom, a po pravilima koja su definisana od strane Microsofta u dokumentu Microsoft SPUR (Service Provider Use Rights), i evidentirati njihovo korišćenje.

3. Osnovna obaveza Korisnika

Korisnik je po ovim Ustvarima korišćenja obavezan da Provajderu isplati naknadu za korišćenje Microsoft licenci po SPLA modelu na mesečnom nivou.

4. Ostale obaveze Korisnika – upotreba Microsoft softvera

Izključivu odgovornost za sav instalirani Microsoft softver i njegovo korišćenje, na servisu baziranom na operativnom sistemu Microsoft Windows zakupljenom kod Provajdera, snosi Korisnik.

Korisnik je u obavezi da se pridržava pravila licenciranja po SPLA modelu, koja su definisana od strane Microsofta, u Microsoft SPUR dokumentu.

Korisnik je u obavezi da Provajderu prijava sav instalirani Microsoft softver, kao i sve promene vezane za instaliranje i korišćenje Microsoft softvera na servisu baziranom na operativnom sistemu Microsoft Windows zakupljenom kod Provajdera, a radi kreiranja izveštaja o korišćenom softveru u toku meseca, koji Provajder prijavljuje Microsoft SPLA distributeru.

Korisnik je u obavezi da Provajderu prijava sve promene u broju naloga, za Microsoft softver koji se licenčira po broju naloga, odnosno po Subscriber Access License (SAL) modelu.

U slučaju zahteva kontrole prijavljenih licenci od strane Microsofta, Korisnik je obavezan da kontroloru, ovlašćenom od strane Microsoft, dozvoli i omogući pristup zakupljenom servisu baziranom na operativnom sistemu Microsoft Windows, radi ustanovljenja činjeničnog stanja sa Microsoft softverom na servisu Korisnika.

5. Ograničenje odgovornosti Provajdera

Provajder ni na koji način nije odgovoran za instalirani Microsoft softver na serveru Korisnika, a koji Korisnik nije prijavio pravovremeno Provajderu, radi kreiranja izveštaja o korišćenom Microsoft softveru koji se dostavlja Microsoft SPLA distributeru.

Provajder nije u obavezi da obezbedi podršku za korišćenje Microsoft softvera.

6. Klauzula o nadležnosti i merodavnom pravu

Sporove po ovim Ustvarima korišćenja Korisnik i Provajder će rešavati sporazumno, a u slučaju da nije moguće, ugovara se stvarna nadležnost suda u Beogradu.

U slučaju da su ovi Ustvari korišćenja zaključeni sa stranim licem i da su pored srpskog jezika prevedeni i na jezik estranog lica, za sva tumačenja će biti merodavan tekst Ustava korišćenja na srpskom jeziku.

7. Važenje ustrova korišćenja

Ustvari korišćenja stupaju na snagu danom prihvatanja Ugovora za korišćenje servisa baziranog na operativnom sistemu Microsoft Windows uz koji su zakupljene i Microsoft licence po SPLA modelu.

Ustvari korišćenja se sklapaju na neodređeno vreme počev od datuma početka korišćenja zakupljenog servisa baziranog na operativnom sistemu Microsoft Windows. Ukoliko ne postoji potreba za daljim iznajmljivanjem licenci koje su predmet ovih ustava korišćenja, ovaj aneks se može raskinuti, uz navaju od strane Korisnika mesec dana ranije.

Korisnik se sa ovim Ustvarima korišćenja saglašava prilikom poručivanja servisa baziranog na operativnom sistemu Microsoft Windows.

Ustvari korišćenja mogu biti sačinjeni u 4 istovetna papirna primerka, od kojih su, u tom slučaju, po dva za Korisnika i Provajdera.
